SUMMARY

Full Stack Developer (MERN Stack) and B.Tech CSE Graduate with 6 months of hands-on industry experience in building scalable web applications, REST APIs, and real-time systems. Skilled in React.js, Node.js, Express.js, and MongoDB, with a strong foundation in Data Structures & Algorithms and software engineering principles. Passionate about developing high-quality software solutions and solving real-world problems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, SQL, HTML5, CSS3

Frontend: React.js, Redux, Tailwind CSS, React Router, Context API, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Bcrypt, Socket.io, WebSockets, WebRTC

Database: MongoDB Atlas, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Cloudinary, Firebase, Netlify, Render

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

EXPERIENCE

Full Stack Developer Intern

June 2025 – November 2025

ThinkNEXT Technologies Pvt. Ltd., Mohali (ISO 9001:2015 Certified)

- Engineered a production-ready full stack e-commerce application using React.js, Node.js, Express.js, and MongoDB, implementing end-to-end features including product management, shopping cart, and JWT-based authentication
- Designed and deployed 15+ RESTful APIs tested via Postman; optimized MongoDB schemas using Mongoose, reducing average query response time by 30%
- Implemented role-based access control (RBAC) and secure session management using JWT and Bcrypt for user authentication flows
- Collaborated in a team environment using Git-based version control workflows including branching strategies, pull requests, and code reviews, following Agile development practices

PROJECTS

SocialSphere – Full Stack Social Media Platform

 GitHub  Live Demo

- Architected and deployed a full stack social media platform with 25+ features (posts, stories, reels, real-time chat) using React.js, Node.js, Express.js, MongoDB, and Socket.io, following MVC architecture
- Implemented real-time peer-to-peer audio and video calling using WebRTC with live controls (mute, unmute, video toggle); integrated Socket.io for bidirectional event-driven messaging with sub-100ms latency
- Built a TikTok-style reels feed with a custom trending algorithm (views + likes weighted scoring); reduced media load time by 60% through Cloudinary CDN optimization and lazy loading
- Secured all API routes with JWT authentication and RBAC; implemented protected resource access for admin and user roles across 20+ endpoints

TaskFlow – Real-Time Team Task Management Application

 GitHub  Live Demo

- Built a real-time Kanban board application using React.js, Node.js, and Socket.io, enabling instant task synchronization across concurrent users with drag-and-drop interface and activity logging
- Engineered a comprehensive data export system supporting PDF, Excel, and CSV formats; integrated dark/light mode toggle with persistent user preferences using localStorage
- Deployed production-ready application on Render with MongoDB Atlas cloud database; implemented secure JWT authentication and role-based access control for team collaboration workflows

MyStore – Full Stack E-Commerce Web Application

 GitHub  Live Demo

- Developed a full stack MERN e-commerce platform supporting 50+ product listings with complete shopping cart, order management, and JWT-based authentication for 2 user roles (admin and customer)
- Built and documented 20+ RESTful API endpoints using Express.js covering products, users, cart, and orders with full CRUD operations and input validation middleware
- Designed normalized MongoDB schemas using Mongoose with indexing strategies, improving query performance and ensuring data consistency across relational collections

EDUCATION

Global Group of Institutes	Sept 2022 – May 2026
Bachelor of Technology (B.Tech), Computer Science and Engineering	CGPA: 7.5/10
Bihar School Examination Board	Sept 2018 – May 2020
Intermediate (12th Grade), Science	Percentage: 66.4%

CERTIFICATIONS

MERN Stack Development – ThinkNEXT Technologies Pvt. Ltd.	2025
Data Structures and Algorithms with C++ – Online Certification Program	2026
